Re: Memorandum Summarizing Ex Parte Communication

On March 30, 2015, representatives of the American Gas Association (AGA) met with officials and staff of the U.S. Department of Energy (DOE) to discuss the notice of proposed rulemaking (NPR) on minimum energy efficiency standards for residential natural gas furnaces. The purpose of the meeting was to reiterate concerns raised by AGA at the March 27th public hearing on the proposed rule held at DOE headquarters. AGA's concerns are described in the summary statement submitted to DOE in advance of the March 27th hearing, and are attached here.

The following persons attended the meeting:

Representing the Department of Energy

- Franklin Orr
- David Danielson
- Kathleen Hogan
- Dan Cohen
- Jonathan Levy

Representing the American Gas Association

- David McCurdy
- Kathryn Clay

Documents reviewed and discussed at the meeting are attached.

Respectfully submitted,

/s/ Kathryn Clay
